Permanent	1 year	BGN 410	1 year	BGN 400

The one-time (daily) pass for an individual is a chip card on which no personal information is printed. For the issue of a one-time pass, it is not necessary to photograph the pass applicant. The one-time pass is valid until the end of the working day on which it is issued and cannot be activated (extended) again.

Temporary (monthly) and permanent (annual) passes have identical external layouts and contain a photograph of the applicant, full name, job title and company, and the Gate through which access will take place.

The prices of the new temporary (monthly) and permanent (annual) passes include a chip card price and an activation price. A chip card is paid on-site at Pass Bureau, when a pass is issued, to a representative of Guard HMS. Activation of a chip card is made after payment of the relevant fee electronically to the account of LUKOIL Neftohim Burgas AD.

A subsequent activation (extension) of an already issued and expired temporary (monthly) or permanent (annual) pass is made after submission of the necessary documents and payment of the relevant activation fee without reissue of the chip card itself.

Already issued permanent and temporary passes are not reissued, but are activated (extended) when they expire and if necessary.
